zando abrirse. Recuerdo bien cuánto me animó Antón Cabrero, que había sido alumno, el primer año de carrera en la ETSAM, con mi concentación elogiosa a aquel proyecto. Proyecto y obra que a su manera eran bien radicales.

— yo creo que desde entonces he vuelto siempre a repetir la pregunta...

Pues bien, todos los años jóvenes que nos están aquí no solo visitan pisan, se sientan en el atrio el primer día. Los recorren, se pasan el día en las aulas antes de abrir con ellos

- memoria del ASILO NIÑO.

Hemos intentado crear un edificio claro abrazado (como un nido de pájaro) con unos brazos capaces de abrir el espacio al cielo. de dirigir la vista al cielo

" El cielo, noticia" es una película inglesa que trata, de lo mismo. En nuestro entorno, próximo a las fábricas de Benetton para unos empleados se hace la guardería, está colocado en casitas pequeñas que no tienen ninguna interés.

Decidimos entonces crear un propio paisaje, abrazando el edificio de manera que las vistas y delimitación por el blanco muro curvo que da continuidad a los patios circundantes, se abran hacia el cielo.
