Fue un atardecer del 22 de diciembre del 1997
esperando a tomar cámara para tubular "columbacio"
de las P. en Cádiz"

plácida pero parece que con, segundos aún de
interior, el día más corto, se irá empinando.
Los ucarinos en Cádiz ya han empezado con
hojas nuevas verde claro. Pasan perros blancos
y sus amos, que no los son tanto. Desde aquí
se ven, entre gente y garita, las grúas del muelle
